SUMMARY

BSc graduate in Computer Science and Engineering (CSE), majoring in Software Engineering, from American International University-Bangladesh (AIUB). Strong foundation in programming, software development principles, and computer science fundamentals including data structures and algorithms. Experienced in building academic and personal software projects using modern technologies. Passionate about problem-solving, writing clean code, and continuous learning. Seeking an entry-level software engineering position to contribute to real-world development teams.

EDUCATION

Bachelor of Science in Computer Science & Engineering

American International University-Bangladesh (AIUB)

- CGPA: 3.45 out of 4.00

Higher Secondary Certificate (HSC)

Rajshahi Education Board Govt. Model School & College

- GPA: 5.00 out of 5.00 | Science

Secondary School Certificate (SSC)

Rajshahi Education Board Govt. Model School & College

- GPA: 5.00 out of 5.00 | Science

SKILLS

Programming: Java, C#, C++, Python, JavaScript, PHP

Web Development: HTML, CSS, JavaScript

Frameworks: ASP.NET, NestJS, Next.js, React.js

Database: MySQL, PostgreSQL (pgAdmin), Oracle

Machine Learning: Regression, Classification

Graphics & Design: OpenGL, AutoCAD

Concepts: Object-Oriented Programming, Data Structures, Web Development

Tools: Visual Studio, Vs Code, Selenium, Ubuntu, Cisco Packet Tracer, Github, Figma, Postman, Emu8086, Google Collab

PROJECTS

E-Pharmacy shop management system (Nestjs, Next.js, React.js) [🔗](#)

2026

- Developed a full-stack web application for managing inventory, sales, and customer data
- Built RESTful APIs with NestJS and integrated frontend using Next.js

Library Management System (ASP.NET) [🔗](#)

2026

- Built a web-based system for managing books, users, and borrowing records
- Implemented CRUD operations and backend functionality using ASP.NET

Supershop Management System (HTML, CSS, JavaScript, PHP) [🔗](#)

2025

- Created a dynamic web-based application for managing products, sales, and customer data
- Developed frontend UI with HTML, CSS, and JavaScript
- Implemented backend logic and database interaction using PHP

Healt Data Bank (SRE) Developed a Health Data Bank system as a software engineering project by gathering and analyzing requirements to design a centralized health record management system for secure and efficient data handling.	2025
Agricultural Shop Management System (C#) - Built a management system to handle product inventory, sales, and customer records - Designed features for stock tracking and transaction management.	2024
Real Time Language Translation for Sign Language (SRE & SQT) Developed a software engineering project for real-time sign language translation into text using computer vision-based gesture recognition. Applied software engineering practices including requirement analysis, system design, UI/UX prototyping, Gantt chart planning, risk analysis, and testing to ensure system reliability and usability.	2024
City Life (OpenGL) Built an OpenGL-based simulation of three different city environments with basic 2D/3D graphics and animations to demonstrate real-time rendering and graphics programming concepts.	2023
Airplane Ticket Management System (Java) - Developed a desktop-based system for booking, managing, and tracking airline tickets - Implemented core features such as user input handling, data processing, and booking management	2022

CERTIFICATIONS

Cisco IT Essentials: PC Hardware and Software 	UNICEF GenU P2E Excel Essenals for Workplace Producvity	UNICEF GenU P2E Workplace Communicaon Essenals

PROFESSIONAL EXPERIENCE

Research & Analysis Assistant EduBdesh, Arha-ab Group	01/2026 – 06/2026 Dhaka,Bangladesh
- Conducting research to support business development, communication, and planning activities. - Analyzing information and preparing insights for branding and outreach initiatives. - Collaborating with cross-functional teams in a business and technology consulting environment.	

EXTRACURRICULAR ACTIVITIES

General Member AIUB Photography Club	
Participated in team based creative activities and events	
Team Lead Academic Projects	
Led a project team for academic software engineering work, coordinating tasks, managing timeline, and ensuring successful project completion through collaboration and effective communication.
